## Warranty & General Disclaimer

Electronic Systems Design, Inc. (ESDI) warrants its products to be free from defects in materials and workmanship for a period of Two (2) years.

During the warranty period, ESDI will repair or replace, at its option, free of charge, any unit returned to ESDI, freight prepaid. Written authorization from ESDI must be obtained prior to returning any unit for warranty work.

This warranty shall be void if the unit has been modified, altered, repaired, or recalibrated, by anyone other than an authorized ESDI technician.

ESDI will not be liable for any consequential damages, loss, or expense arising in connection with the use of, or the inability to use its goods for any purpose whatsoever. ESDI's maximum liability shall not in any case exceed the contract price for the goods claimed to be defective or unsuitable.

Products will be considered accepted by customer, unless written notice to the contrary is given to ESDI within ten (10) days of such delivery to customer.

ESDI shall not in any case be liable for any event occurring, or defect discovered, with regard to said products unless written notice thereof is given to ESDI within one (1) year of such products delivery to customer.

Except for the warranty that the products are made in accordance with the specifications therefor supplied or agreed to by customer, ESDI makes no warranty expressed or implied, and any implied warranty of merchantability or fitness for a particular purpose which exceeds the foregoing warranty is hereby disclaimed by ESDI.

ESDI's products are not designed for and should not be used, without the specific prior written consent of ESDI, in any life support systems, nuclear-facility applications, aircraft-control applications or any other applications in which use or failure of the product, in any way, could result in personal injury, harm to life, property, or the environment.

This warranty and general disclaimer is in lieu of all other warranties and claims, expressed or implied.
